

Actors Needed

Tryouts for the Tennessee Williams play, "The Glass Menagerie", are scheduled for February 8, at 7:00 p.m. in the Little Theatre.

Drama director Hal Ulrici is looking for new talent to comprise the play, which he hopes will attain the success

of the thespians present stage endeavor, "Tevya and His Daughters".

Help is needed both on stage and behind the scenes, and those who are interested may contact Mr. Ulrici, or appear at the tryouts on February 8th.

TEVYA TAKES TO FOOTHILLS

Sunday night brings a special event to the Hartnell Drama Department. This is the night our college will present "Tevya and His Daughters" at Foothill College. Mike Rega, who plays the leading role of Tevya, had a few comments to offer about the performance. When asked how he felt about the whole thing he replied, "It's hard to say. A show is a show and when it receives a large amount of recognition it puts pressure on the cast." He went on to say that he was a little confused. People were putting too much emphasis on their winning the competition. Mike said that he and the rest of the cast were tired of the word "competition". "We'll go to Foothill and put on the show. If we win - fine. If we don't - fine. We consider

this performance just like any other one."

Mr. Ulrici said he didn't know when they would get the results. He said they might get them that night or they might get them a month later.

He was informed that two of the judges will be well-known movie stars - Agnes Moorehead and Jan Sterling. Also in the audience will be Bing Crosby and Shirley Temple Black. Mr. Ulrici said this would be a terrific chance for the students because they would be able to meet these people. And if they are really great they might even get a chance at real show biz!

We all wish them the best of luck. But remember - it's not whether you win or lose - it's how well you play the game!

Mr. Ulrici piles one of many loads of props into the waiting arms of Mary Comeau. He and the cast of 14 left for Foothill College yesterday afternoon.

TO HALL WITH MATS

"Have you ever had a shin splint? They hurt, don't they?" With these words Dr. Gibb Madsen explained the need for the rubber mats being tested in the main building entrance.

The mats are of materials totally different from one another. Both are synthetic material but are of different chemistries.

"The reason its put in is to see what happens when they get a lot of use and wear. In addition to the technical speculation of shrinking or expanding, there is a difference in labor it takes to maintain each one," relates Madsen.

PARKING LOT PANDEMONIUM

The need to watch out for drivers on the campus was illustrated about 4 p. m. last Wednesday when a student was injured on the Hartnell parking lot. Taken to Memorial Hospital by A-1 Ambulance was 18-year-old Jess Houk. He was struck by an automobile driven by Timothy Bernal, another Hartnell student.

PANTHER SENTINEL

Volume XL

Friday, February 5, 1971

Number 15

Don't Take One - Take Three

With the initial showing of "Take One" scheduled for 7 p. m. Friday, February 5, 1971, a series of films produced by students of other colleges may prove inspirational to Hartnell students.

Student made films have made a hit with some who have been fortunate enough to see the advance showings.

These films are usually short, produced and directed by a student majoring in film at a college, university, or art school. As part of a course requirement, made within a

limited budget and with limited facilities, they may be somewhat rough when compared to a professional film. Usually simple in theme, they may be experimental in nature.

Virtually every part of the country is represented in the "Take One" series. Even some

colleges in Canada have contributors.

Starting February 5, 1971 a special series of films will be exhibited in the Student Union lounge. There will be two showings each Friday evening at 7 and 9:30 p.m.

Admission: \$1.50 or ASB Card and \$1.00.

EDITOR'S MAILBOX

Dear Editor:

In regards to your issue of the Panther Sentinel, Vol. XL, No. 14, Friday, January 15, 1971, in Letters to the Editor. We, the Spokesman and the Secretary Spokesman wish to make the following replies for the Consumer Boycott Committee, here at San Jose State College.

First of all, coming from the Salinas Valley, and enter-

ing into San Jose State, we found the change in environment was a great deal more

than we expected. But the change was well worth it, as we see it, leaving the conditions of a closed in and bias atmosphere to that of a more liberal school. We wish to state to those of you who consider yourselves more American than we, (and we use the word American with a great deal of vanity), by masquerading behind the American flag, that we are no more Communist than you.

Our first reply goes to the person who signed himself out of the picture with the title of, (By the Committee That Thinks Neither Side Is Completely Right Or Even Honest.) May we first point out to you, since you seem to be more of a realist, and less of a humanitarian, that the economy, and political power of the poor growers are at stake, and they will go to any means to win over the United Farmworkers Organizing Committee. From an economic point of view, let us look at the price of lettuce before Cesar Chavez "infil-

CONFIDENCE COURSE

I like sex, but I hate English. Is this a common phrase you find yourself saying? If yes, then this program may be for you. It is a 14 unit-block program that begins the semester.

"This program is designed for students who are not scholarly apt. This block program is designed to give confidence to students so they can make it in college," says Juan Valadez, coordinator of the program.

Suggested by M.E.C.H.A., the program offers help in Math and speech also. Financial aid is offered if needed. Students interested can contact the E.O.P. office or Mr. Paul Nava, Special Students Services Officer.

PANTHER GRAPPLERS GROUND SEAHAWKS

Hartnell's wrestling team initiated its Coast Conference mat season yesterday afternoon, with a convincing 36-6 triumph over the hosting Cabrillo Seahawks.

Coach Wes McWilliams pointed to Jeff Lowe's 10-0 decision over Cabrillo's Mike Howard in the 126 lb. division, and Ron Robinson's 7-0 defeat of Seahawk Ted Myers in the 150 lb. weight class, as being the most outstanding matches of the meet.

Roger McLaughlin was the only other grappler to pick up points on the mat for the Panthers, as he won a hard-fought 6-5 victory over Ron Lunsford, in the 177 lb. division. The remaining Hartnell points came as the result of five Cabrillo forfeits.

The Panthers hope things go as well this Friday afternoon, when they host the Rams of Gavilan, at 4:00 in the men's gym.

Cont'd from pg. 1

trated" our quiet, and peaceful valley. What was the price of lettuce then, and what was it during the strike? How much more was Bud making with his crews of unionized workers, who didn't have any say so whatsoever when Bud decided to unionize them nine years ago? From a political point of view, why is it during our lettuce dispute, the United States Army was making increases in their allotments of lettuce? Is Cesar Chavez a threat to our national security, or just a threat to those who make their millions off the minorities? How much are some of the growers paid in subsidies, and who is controlling the fight against the U.F.W.O.C.

In reference to the "religious shrine, exposed to the elements and surrounded by red flags, reminiscent of those of Nazi Germany." The only thing we can say to a statement like that is, are you one of "those people" who has been conditioned to think that all Roman Catholics are bad. Also, that their religion is disgraceful and pagan, especially when their skin is darker than yours. If you are, we pity you and your anglo counterparts. Not only for your ignorance on religion but, for associating with your biased anglo society.

We gather by your article that you're one of the citizens who spent a few hours a day in the fields, was served hot coffee, doughnuts, and felt really good after a hard

day's work of a few hours. To this we ask, how many hours a day did you work out there in the fields? What time did you get up to start working? Did you get many breaks? How many days did you spend in the fields? How many months did you spend out there? Was the coffee and doughnuts suitable to your taste? This applies to anyone who "braved the mobs of hundreds of flagwaving, club carrying, cursing, violent U.F.W.O.C. supporters, to get the job done." What about Jerry Cohen, who was beat unconscious on the farm of Al Hansen? What about the "goon squad" hired by the teamsters union brought in to do their job? What about the farmer on River Road, who jumped on his tractor, and tried to run down picketers on his property, smashing into a number of cars, and trucks? What about the ratio of prosecuted picketers, whom injunctions had been served on both sides, meaning U.F.W.O.C., and the Local Citizens Committee for Justice? Before leaving Salinas, the figures stood at the following:

U.F.W.O.C. 380
L.C.C.F.J. 6
Give or take a few, these figures stand to be correct.

You seek the truth by your own standards and sources, which is equivalent to asking an anglo what it's like to be brown or black. All you get is a poor-ass answer. Have you really heard both sides? Or just that of your neighbors point of view, who

Harts Win 4th

Hartnell's basketball squad moved its Coast Conference record to 4-2 by scoring a convincing 87-76 victory over the Cabrillo Seahawks at the Panther Gym last Wednesday night. Hartnell's win kept it one game behind front-running Ohlone upset last Saturday by MPC 75-70.

The Panthers wasted little time establishing a lead as they outscored the Seahawks 27-19 in the first ten minutes of play.

Action last Saturday found the Panther whipping Menlo Oaks 94-85 in Menlo Park.

occupies himself by screaming for justice and equal rights. Meanwhile knowing that farmworkers were being done an injustice by working for only a \$1.65 per hour just a few months ago. Also, as they sat in jail, along with Cesar Chavez for their belief in La Causa. Being deprived of their equal rights as citizens of THE UNITED STATES OF AMERICA. Where were you and the rest of the Local Citizens Committee for Justice then? Washing your pretty, red, white, and blue flag? RED from the blood of minority people striving to change the oppressors of this capitalistic society. WHITE from the anglo supremacy that rules this country under the dollar, using any means to hold it's financial security, throughout the Northern Hemisphere, and, BLUE from the sorrow of political prisoners who are being cast aside as menacing figures in this sick "nothing is wrong" anglo dominated society! Which we know as well as many other minorities are finding out, that someone is screwing somebody, somewhere along the line of freedom and democracy.

To this we would like to add a few concluding statements.

You claim yourselves, (Impartial Hartnell Students Seeking the Truth on the Farm Labor Situation.) We feel you should substitute Impartial with Discriminating, or and Apathetic. Prove us wrong, if you can.

MAY THE STRIKE, AS WELL AS OTHER STRIKES FOR BASIC HUMAN JUSTICE, GO ON! POWER TO THE PEOPLE!

VIVA LA CAUSA!

Respectfully,
Consumer Boycott Committee

Roving Reporter

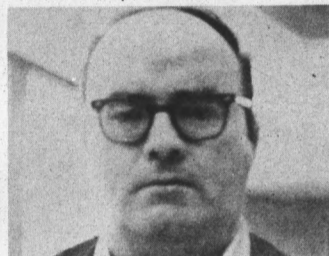

Roving Reporter: What's your opinion of Kunstler's coming appearance at Hartnell?

Jerry Brant: Students at Hartnell should make the decision if Mr. Kunstler is to make an appearance. This background certainly raises questions, but adults (Hartnell students) certainly have the intelligence to decide for themselves if his background and ideas have merit.

Yvonne Trevino: Let him voice his opinion.

Jack Kenny: I don't think he should be allowed to speak because he's an avowed communist who advocates the overthrow of the government and should not be given permission to voice his opinions at an educational institution.

Paul Hernandez: From the sound of things he seems pretty intelligent, but I would not want him for my defense attorney. I might get life imprisonment for littering.

Len Chriss: I think Kunstler's appearance is a very warranted and necessary experience for Salinas. Salinas being the Convent of the west coast, needs some type of stimulation from its long deep sleep into ignorance. As I and most individuals probably agree, Kunstler really could do some harm to some aspects of the community. The long range affect on Salinas will probably be a large zero. This will, as usual, only be a reflection of the adult population's manifested ignorant attitudes cultivated into their biological counterparts. Ignorance is bliss, but the consequences are not old people.

Lillian Crawford: I can think of many people that I'd rather have money spent on and rather hear than Mr. Kunstler.

Jim Gaisford: I think they ought to burn him!
